EMPOWERING MEDITERRANEAN REGULATORS FOR A COMMON ENERGY FUTURE

MEDREG ACHIEVEMENTS 2018-2020

Co-funded by the European Union
1. Design options to stimulate regional integration
2. Analyse and improve conditions for infrastructure investment
3. Design frameworks to improve and increase efficiency, competition and transparency of electricity and gas supply industries and promote RES
4. Design a common approach on consumer protection principles, considering the situation of vulnerable consumers
5. Build regulatory capacity in the region
MEDREG acts as a platform assisting the needs of its members. It also facilitates capacity development activities through webinars, training sessions and workshops as well as personalised hands-on initiatives.

Through constant cooperation and information exchange among members, MEDREG aims to foster consumer rights, energy efficiency, infrastructure investment and development, based on secure, safe, cost-effective and environmentally sustainable energy systems.
Promotes the role and competencies of independent regulatory authorities and examines the legal issues of Mediterranean regulation.
