

Curriculum Vitae
Veljko B. Vasiljević, PhD
Civil Engineer | Organizational Management Specialist

Dr. Veljko B. Vasiljević is a civil engineer and organizational management specialist with more than twenty-five years of professional experience in engineering, project management, and public service.

He earned his PhD in Organizational Management from the Independent University of Banja Luka (2017–2022), where his doctoral dissertation focused on organizational management. He also holds a master's degree in Organizational Management from the University of Montenegro in Podgorica and a degree in Civil Engineering from the same university, specializing in concrete structures.

His career spans leadership roles in both the public and private sectors. He served as Director of the Agency for Design and Planning (2000–2011) and later worked as a leading engineer and designer with several construction companies, including "Savić-Gradnja," "Vector-Group," and "RMA Inženjering." Since 2021, he has coordinated major infrastructure and renewable energy projects for EPCG, including water regulation initiatives and the Gvozd Wind Power Plant (54 MW). He was also a key consultant and supervising engineer on the Krnovo Wind Power Plant (72 MW), which has been in reliable operation since 2017.

In addition to his engineering work, Dr. Vasiljević has held significant governance positions. He was a member of the Parliament of Montenegro (2012–2020) and served three mandates in the Nikšić Municipality Assembly (2009–2013). He has also been a member of the Boards of Directors of the Pljevlja Coal Mine (2021–2023) and EPCG Solar Gradnja Ltd (2024–2025). In May 2025, he was appointed President of the Board of the Energy and Water Regulatory Agency.

Dr. Vasiljević is an active contributor to the professional community. He has collaborated with the Faculty of Civil Engineering in Podgorica on structural rehabilitation projects, co-authored a publication on the calculation of wooden structures, and continues to provide consulting and expert services in construction and project management. He has also completed advanced training in project management at the Belgrade Project Management Center (2023).

He is a long-standing member of the Engineering Chamber of Montenegro, where he currently serves on the Disciplinary Court, as well as a member of the Independent Association of Court Experts of Montenegro and the Association of Independent Appraisers of Montenegro.
